Continuation Sheet (PTOL-303) 10/005,484

Continuation of 5. does NOT place the application in condition for allowance because: Arguments re:102 Evans provides the functional capability to perform the claimed function of providing "all metering positions from a fully closed position to a fully open position". Re: 103 arguments rely on improper physical incorporation of elements. Re: claims 51, 52, it is proper to reject dependent claims under 103 once independent claims are rejected under 102.
